Crossbows should be allowed for all seniors res or non- res if they are 60 yrs old!!! Can also be allowed for disabilities!

Subject: Crossbow Permittees using Scopes

I would like to object to the proposed change that would allow Crossbow Permittees to use scopes on their crossbows during archery seasons. I understand allowing the use of scopes on crossbows during firearms season for a hunter who holds a firearms tag as they are already allowed on firearms at that time.

However, archery hunting by its very nature is a close range primitive endeavor. Attaching a scope to your weapon detracts from the spirit of this primitive season and takes away much of its inherent challenge. Because of this I am voicing my objection to allowing the use of scopes on crossbows during archery season when the permittee holds only an archery license and not a firearms tag.

Thank you for hearing my comments, and please contact me should you have any questions.

Sincerely,

Kevin Hansen
